Tectonophysics Volume 224

Special Issue: Measurements and Theoretical Models of the Earth's Electric Field Variations Related to Earthquakes (edited by P. Varotsos and O. Kulhánek)

Preface vii
Latest aspects of earthquake prediction in Greece based on seismic electric signals, II
P. Varotsos, K. Alexopoulos and M. Lazaridou 1
A telemetric system for measuring electrotelluric variations in Greece and its application to earthquake prediction
K. Nomicos and P. Chatzidiakos 39
On the experimental evidence for the SES vertical component
G. Antonopoulos, J. Kopanas, K. Eftaxias and V. Hadjicontis 47
Experimental study of a VAN network in the French Alps
C. Maron, G. Baubron, L. Herbreteau and B. Massinon 51
Possible correlation between geoelectric potential change in Izu-Oshima Island and the earthquake swarm off the east Izu Peninsula, Japan
T. Kawase, S. Uyeda, M. Uyeshima and M. Kinoshita 83
SES activity and the Earth's electric potential
T.M. Ralchovsky and L.N. Komarov 95
Periodic variations in the Earth's electric field as earthquake precursors: results from recent experiments in Greece
C. Thanassoulas and G. Tselentis 103
Subtraction of the telluric inductive component from VAN measurements
D. Hadjioannou, F. Vallianatos, K. Eftaxias, V. Hadjicontis and K. Nomikos 113
A model for the influence of local inhomogeneities on the magnetotelluric variations at two VAN stations in Greece
F. Vallianatos and K. Eftaxias 125
Enhancement of seismic electric signals using magnetotellurics
R. Arvidsson and O. Kulhánek 131
Analysis of the electromagnetic field recorded in the Friuli seismic zone, northeast Italy
T. Ernst, J. Jankowski, C. Rozłuski and R. Teisseyre 141
Seismic electric signals from displacement of charged dislocations
L. Slifkin 149
On the physical background of the VAN earthquake prediction method
H. Utada 153
Comments on the results obtained in Greece by the VAN method of seismic prediction
J. Labeyrie 161
On the origin of electrotelluric disturbances prior to an earthquake in Kalamata, Greece
N. Gershenzon and M. Gokhberg 169
Thermally stimulated currents in rocks. II.
E. Dologlou 175
The effect of geological anisotropies on the detectability of seismic electric signals
D. Papanikolaou 181
A three year continuous sample of officially documented predictions issued in Greece using the VAN method: 1987–1989
E. Dologlou 189
Statistical evaluation of the SES predictions issued in Greece: alarm and success rates
K. Hamada 203
Statistical evaluation of the VAN predictions issued during the period 1987–1989
M. Shnirman, S. Schreider and O. Dmitrieva 211
Evaluation and interpretation of thirteen official VAN–telegrams for the period September 10, 1986 to April 28, 1988
J. Drakopoulos, G.N. Stavrakakis and J. Latoussakis 223
A reply to "Evaluation and interpretation of thirteen official VAN telegrams for the period September 10th, 1986 to April 28th, 1988", by J. Drakopoulos, G.N. Stavrakakis and J. Latoussakis
P. Varotsos, K. Alexopoulos and M. Lazaridou 237

Social impacts of earthquake prediction in Greece
H. Yoshii 251
Estimation of electric fields in the conducting Earth's crust for oscillating electric current dipole sources and implications for anomalous electric fields associated with earthquakes
Y. Honkura and Y. Kuwata 257
Note on a possible origin for seismic electrical signals
D. Lazarus 265
Earthquake predictions issued in Greece by seismic electric signals since February 6, 1990
P. Varotsos, K. Alexopoulos, M. Lazaridou-Varotsou and T. Nagao 269

Research Papers
Landscape response to strike-slip faulting linked to collisional settings: Quaternary tectonics and basin formation in the Eastern Betics, southeastern Spain
P.G. Silva, J.L. Goy, L. Somoza, C. Zazo and T. Bardají 289
Multiphase deformation and displacement within a basement complex on a continental margin: the Wudang Complex in the Qinling Orogen, China
W. Huang 305
The evidence of along-arc differential uplift of the Shimanto accretionary complex: Fission track thermochronology of the Kumano Acidic Rocks, Southwest Japan
N. Hasebe, T. Tagami and S. Nishimura 327
Mechanism of emplacement of the Cannibal Creek Granite with special reference to timing and deformation history of the aureole
B.K. Davis 337
Orogen-scale strain partitioning and an analogy to shear-bands in the Torngat Orogen, northeastern Canadian Shield
R. Girard 363
The origin of the West Spitsbergen Fold Belt from geological constraints and plate kinematics: implications for the Arctic
N. Lyberis and G. Manby 371
An inverse problem for the determination of the stress tensor from polyphased fault sets and earthquake focal mechanisms
T. Phan-Trong 393
Upper crustal structure of the Larderello geothermal field as a feature of post-collisional extensional tectonics (Southern Tuscany, Italy)
G.M. Cameli, I. Dini and D. Liotta 413
Deformation of sediments in the post-orogenic Intra-Carpathian Paleogene Basin as indicated by magnetic anisotropy
F. Hrouda and M. Potfaj 425
The inverse approach to a geothermal profile of the central Moesian Platform, Romania
M. Andreescu 435
